

Your Data. Your Questions. Trusted Answers.

Connect any data source, ask questions in plain English, create dashboards with a simple prompt, and export presentation-ready insights independently.

Accurate, grounded answers
No hallucinations.

FROM DATA TO DECISIONS IN FOUR STEPS.

1.

Connect Your Data

Upload files or connect supported data sources.

2.

Ask in Plain English

Ask questions directly from your data.

3.

Create Your Dashboard

Build and arrange dashboards with a prompt.

4.

Download & Present

Export to Excel or PDF and share.

EVERYTHING YOU NEED. ONE PLATFORM.

Any Data Source

Upload files or connect to databases, cloud apps and more.

Natural-Language Q&A

Ask questions in plain English and get instant, accurate answers from your data.

Prompt-Built Dashboards

Create interactive dashboards from a simple prompt — no coding required.

Verified Accuracy

Built on trusted data handling and intelligent validation for reliable, enterprise-grade insights.

Arrange Your View

Move, resize and reorganize dashboard tiles to fit your needs.

Excel & PDF Export

Download your dashboards in Excel or PDF and share them with your team or stakeholders.

WORK FASTER. DECIDE WITH CONFIDENCE.

Minutes, Not Days

Turn data into insights in a fraction of the time.

Work Independently

No more waiting for analysts or reporting teams.

Presentation-Ready Insights

Trusted, accurate insights ready to share with stakeholders.
